WE Charity

WE is a movement that brings people together and gives them the tools to change the world. The unique family of organizations empowers people at home, around the world and through a social enterprise.

WE SCHOOLS

Through educational resources and campaigns, students further their curricular learning and develop the life skills for success. Young people are challenged to research and make an impact on at least one local and one global issue that sparks their passion. By coordinating their service projects, students learn skills in leadership, communication and project management. These are 21st century life skills that are often missed by traditional models of education.

WE VILLAGES

A sustainable community is one where families have the knowledge and skills to be self-reliant. The goal of WE Villages is to implement a holistic, sustainable development model so that communities can lift themselves out of poverty and never have to rely on charity again. This is achieved through five Pillars of Impact: Education, Water, Health, Food and Opportunity.
WE Charity Impacts

On average, 90 percent of donations made to WE Charity go directly to our programming.

INTERNATIONAL

🌟 **Education:** In 1998, we built our first school rooms in Nicaragua and India. Now, we’ve built over 1,500 schools and school rooms around the world, giving more than 200,000 children access to education.

💧 **Water:** Our first two major borehole wells were drilled in 2008 in Kenya. We have now provided more than one million people with clean water and sanitation.

❤️ **Health:** Over $36 million in medical supplies has provided one million people with health care.

🍴 **Food:** In 2012, after four years of supporting school lunch programs in Kenya, our work was formalized with the launch of the Food Pillar. To date we have enabled farmers and families to produce more than 15 million nutritious meals to fuel their communities.
