Hello Bill,

It was incredibly thoughtful of you to call. Thank you very much.

I realize that your team provides you access to extraordinary data. If helpful, attached are two documents. The attached email is from two days written by [REDACTED], an epidemiologist at U of T who is briefing-in [REDACTED] with his team's modelling for Ontario with re-opening. The word document is a transcript from a call with [REDACTED], with an emphasis of the impact on markets, second wave, etc.

Warmest,

Craig
